

Brooklyn Child Care Inc. Security Cameras

Our Childcare Center Video Surveillance Policy

To ensure the safety and security of all children, staffs, parents, and visitors, as well as the security of our daycare facility, **Brooklyn Child Care Inc.** is equipped with 24-hour video surveillance system and security cameras are installed in both classrooms and outdoor play area, the only exception being private areas of restrooms. The cameras are used in order to help promote the safety and security of people and property.

The following are just some of the many benefits of having security cameras installed in daycare centers.

- * Security cameras keep children & staff safe & are very effective deterrent of any crime.
- * People tend to behave/perform better when there are security cameras around.
- * Owners/Executive Directors can better monitor the entire facility and supervise/observe staff's interactions with children and with other staff members effectively.
- * They provide peace of mind to our parents & staff.

Because we respect the privacy of all children, parents, and staff in our daycare center, our 24-hour video surveillance system/ security cameras are for internal purposes only.

Parents are **not allowed to view or have copies recordings .**

ONLY the Executive Director and/or Parent Board Members and VA Police are allowed to view our security cameras/ video footage either at the Center's office.

I understand and will follow the video camera policy.
