*You're
Invited!*

Pre-k will have 3 learning models
to chose from:

1. In class everyday
2. Blended: learn at home and
learn onsite at school on other
days
3. Remote: learn at home full
term

WHAT TO EXPECT WHILE IN THE BUILDING:

Teachers will use masks and social distance from each other when feasible. Staff will have their temperatures taken upon entry to school and change their shoes. Staff will take temperatures as kids walk into the building. Teachers will get creative with social distancing methods for children but children are not expected to maintain social distance from each other while in the classroom. Everything would likely be spread out and regular sanitizing is likely to be routine. Each child will have their own bin of “Educational Materials” that will be sanitized daily. It might mean kids eat lunch a little more spaced out than usual, and don’t share food. We will enroll 12 children in the toddler room and 15 children in the Pre-K room. We will keep these groups stable and apart from each other as much as possible. Teachers will have an adequate amount of hygiene supplies like hand sanitizer, soap, and paper towels on hand to facilitate an increase in hand-washing.

PARENTS SHOULD BE AWARE

All Staff will clean and log their cleaning in the classrooms.

Families will not be allowed in the classrooms. We would like children to have different shoes to change into.

If a case of COVID-19 is confirmed, the CDC recommends taking the following steps: □ Close off areas used by the person who is sick. □ Open outside doors and windows to increase air circulation in the areas. □ Clean and disinfect all areas used by the person who is sick, such as offices, bathrooms, and common areas. □ Director will inform families via email and notice on door. DOH will be notified and tracing will begin. Director will inform DOE and the VA management
